● How to connect

1. Please check up the SSID number on the bottom of the tank. Slide the power switch on the tank to “on”. The power will illuminate. Wait approximately 30 seconds and the signal light will start to blink slowly.
2. On your iPod touch , iPhone or iPad device, go to “Settings” and turn on the Wi-Fi . The SSID address of your tank will appear as an available connection.

Note: Each i-spy mini has a unique SSID address (stick on the underside of the unit). If there are multiple tanks being used, the individual SSID addresses will appear at the same time. Select your tank's SSID address.

3. Select the tank to confirm the connection and input the password “00000000”. Ensure there is a check mark to the left of the SSID address and the Wi-Fi connection logo appears at the top of your device's screen.
4. Exit out of Setting and open the “i-spy mini”.
5. The signal light will blink faster now.
6. When your device screen shows the view from the video camera, you are ready to start exploring.

I-SPY MINI

● Video

The tank can record the video of your driving route and save it as a file on memory card, then you can replay it on your device screen:

1. Press the "Video Camera" button and drive the tank on the route you want to record.
2. After you complete your route , press the "Video Camera" button again to save the record .
3. Press the "viewer" button to view the file. Select the file , it will be played on your device interface.

I-SPY MINI

● Camera

The tank can take snapshots . Press the “Camera” button to take a snapshot, the photo will be saved in the Photos Folder on memory card.

● Cautions

1. When the battery is low in the i-spy mini, the control distance will be reduced.
2. The biggest control radius of the i-spy mini is 15 meters, please uses within this area, otherwise the i-spy mini will be out of control.
3. If the i-spy mini was damaged, distortion, please repaired in time.
4. Do not make the i-spy mini crashing, this may damage the i-spy mini.
5. Turn the tank off before cleaning. Wipe the tank with a soft , dry cloth. Ensure there is no hair or lint caught between the rear or front wheels and the drive shafts. Clean carefully with your fingers or a pair of tweezers.
- 6.Rechargeable batteries are only to be charged under adult supervision.
- 7.The supply terminals are not to be short-circuited.

I-SPY MINI

● Problem - Solving

Symptom	Cause	Correction
Wheel can't move.	• ON/OFF switch is OFF.	• Set switch to "ON".
Suddenly stop.	• Weak battery.	• Recharge the tank.
