4. Adjustment

When the snake does not move straight, you may adjust it by controller, following the steps below:
(1) Place the batteries into remote control properly. Switch on the snake body, the indicator light on the remote control is flashing slowly simultaneously.
(2) Press the forward button to let the snake move. At this time, press the left and right button simultaneously for 3 seconds to access the left and right adjustment state. Meanwhile, the indicator light on the remote control is on.
(3) Under the adjustment state, the snake moves automatically. If the snake deviates to the right when forwarding, press the left button until the snake moves straight. If the snake deviates to the left when forwarding, press the right button until the snake moves straight.
(4) After finishing adjustment, press the forward button for 3 seconds, the indicator light on the remote control restores to standby mode and you can continue to play normally.

5. Operation

Control Distance: Within 15 meters.
Operation time: After fully charged, the rattle snake can run for 20 minutes.
(1) Forward/Pause:
Press the Forward/Pause key to make the rattle snake move forward; then press the Forward/Pause key once again and the rattle snake will stop moving.
(2) Turn left:
Press the turn left key on the transmitter.
(3) Turn right:
Press the turn right key on the transmitter.
(4) Frequency selection lever:
You can use the frequency selection lever to control the rattle snake with 3 different frequencies. In other words, you may use 3 transmitters in different frequencies to control 3 rattle snakes to compete. First, press the frequency selection lever to gear A and then pull the power of the rattle snake to "ON" position, press down any of the functional key to finish decoding successfully. Then push the frequency selection lever to gear B and gear C. Repeat the previous steps and you can use only one transmitter to control this rattle snake in 3 different frequencies.

6. CAUTION

(1) Detachable small parts should be put away, do not let children devour.
(2) If there is radio interference to the operation venue, please select the other venue to operate.
(3) When the remote control is in low battery, please stop operating immediately.
