

# ELECTRIC RACING BOAT

Instruction Manual and Tuning Guide

組裝-使用說明書

Product No.	1106
Hull Length	820mm
Beam	240mm
Height	160mm

Before assembly, please read these instructions carefully.

在動手組裝模型之前，請先詳細閱讀這本組裝使用說明書！

Always keep this instruction manual handy, even after completed assembly.

## Introduction 簡介

Thank you for purchasing our boat !

The PURSUIT is manufactured to true Offshore scale, and the hull is built entirely of fiberglass .This Offshore model is powered by a brushless motor power unit. You will appreciate the excitement our model has to offer after our upgrades following much research and engineering.

Our high speed power system with highly efficient propeller will not only raise power and performance to a new level, but also offers you an unprecedented boating experience.

PURSUIT also is suitable for NAVIGA related racing events!

感謝閣下對天富龍模型產品的信賴與支持，PURSUIT無刷動力賽艇適合中、初級遙控模型愛好者操控和玩樂。PURSUIT賽艇根據 Naviga真實賽艇按比例縮放設計，使用玻璃纖維工藝精心制作，並配合強大的無刷電機系統，令操控者領略賽場上的速度與激情！當經過適度升級改造，PURSUIT無刷動力賽艇無論動力和操控性都會達到一個新臺階，更令你得到前所未有的新體驗，亦可用使用本賽艇參加NAVIGA O級相關規範的賽事。

The PURSUIT is a very complex remote control model and should not be used by children without adult supervision. Please carefully read this manual and safety precautions prior to its first use. If you are a beginner with remote control boats, please contact your local club or hobby shop for assistance. Please retain this manual for future reference

請記住，這是一款非常復雜的比例遙控模型，零件的復雜度和操控性和真正的賽艇非常接近。我們希望這款產品給你帶來賽艇的刺激和娛樂休閒的感受。駕馭該產品需要比較全面的專業知識，所以你需要仔細閱讀這本使用說明書及注意事項，如果你是一名新手或者第一次接觸遙控模型，請在組裝、操控模型前尋求富有經驗的模型愛好者、模型店的幫助，以令商品的性能完美發揮。請保留本手冊，以供將來參考。

## Attention 注意事項

1. Keep the model away from sunlight, heat and moisture (somewhere dark, cool and dry ).
2. Always remove the battery before storage, transportation or charging.
3. Only use this boat in rc boat approved water areas, away from people and animals.
4. Ensure the electronics are kept waterproof by using sealing tape across all cowling access seams..
5. Make sure the motor is dry before storage.
6. Keep the hull and all electronic parts clean and free from dust or oils.
7. Beware of the spinning propeller ... it is dangerous.
8. Beware, some parts may be hot after use.

1. 不能將模型長時間放在陽光下直接暴曬。
2. 不要將此模型駛近高壓輸電綫、無綫電鐵塔，或者其他有無綫電波管制的區域。
3. 做好防水工作，不要讓水或其他液體接觸到任何電氣部分，包括馬達、遙控器、伺服電路、電子調速器等，並有效地用密封膠帶將船艙蓋密封。
4. 模型船應該存放在陰涼乾燥的地方，濕度高的地方可能令模型加速銹蝕。
5. 保持船身幹淨清潔，不要讓灰塵、油污接近船身和電氣部分。
6. 運輸過程請保持船體的平穩，劇烈的顛簸、搖晃和硬物的撞擊會導致船身和零部件的損壞。
7. 除了必要的零部件，船艙內不能留有任何異物。
8. 請不要將手和其他物體靠近高速旋轉的螺旋槳、外轉子無刷電機的外殼，這些都會使你受到不必要的傷害。
9. 剛剛停航的馬達和電池都有一定熱量，為防燙傷應避免觸摸這些地方。

## Warning 警告

Always arrive prepared to rescue your boat in case it stops. NEVER swim for your boat. A fishing rod with line and small weight is a good rescue method.

1. 不要在人群密集的地方操控快艇，包括公眾海濱浴場，公眾游泳池和其他一些水上會所，任何有船祇行駛的主航道，因為在模型的安全問題上你負有完全的不可推卸的責任！！
2. 在模型的放航前要做好船祇的拯救打撈措施，因為你的船祇很有可能在湖中停航。
3. 在風急浪涌或潮汐高漲的天氣請不要讓模型下水，這時水面下很可能有強大的暗流，你不但要做好船祇的保護工作還要為自身的安全多作考慮，避免失足落水。

**Included Items**

**包裝內容**

Manual  
組裝調試說明書

Hull  
船體

Brushless Motor  
無刷馬達

Drive System  
傳動系統

Hatch  
船艙蓋

Wooden  
Display Stand  
木制展示船座

Antenna tube  
天綫管

Propeller  
推進器

Waterproofing  
tape 防水膠帶

Tab  
水刀

Rudder  
舵

**User supplied items**

**必要配件 (選購)**

2Ch radio control unit with

Wheel type  
槍式遙控

or  
或

Stick type  
杆式遙控

Please check the size of your servo if it's in accord with installation requirement.  
請檢查你的伺服器的尺寸是否符合安裝要求

適合的伺服器尺寸

AA Size

8 pieces AA battery (for transmitter)  
AA-規格電池8個 (發射機用)

Main battery 11.1V-14.8V (LiPo) >30c \*2

Charger  
快速充電器

120A capable watercooled  
Brushless electronic speed  
controller with BEC

**User Supplied Tools**

**需要自備的工具**

Philips Screwdriver  
十字螺絲刀

Needle Nose Pliers  
尖嘴鉗

Scissors  
剪刀

Hobby Knife  
模型刀

Wire Cutters  
鋼絲鉗

Epoxy Glue  
雙組分環氧膠

Instant CA Glue  
CA瞬間粘合膠

Model Overview 各部位概述

Boat Stand

船座

Propeller Installation

安裝推進器

Rudder Servo Installation

舵伺服器安裝

Ensure smooth non binding movement while assembling.  
這顆螺絲不能扭緊，鬆緊度應該可以輕鬆撥動為宜。

**Cooling System 水管安裝**

**Rudder Servo Installation 舵伺服器安裝**

As the picture showing up, this hole extended with 2mm diameter, then cut off with the dotted line

1

**INSTALLING THE RUDDER SERVO 舵伺服器安裝**

**Receiver 接收機**

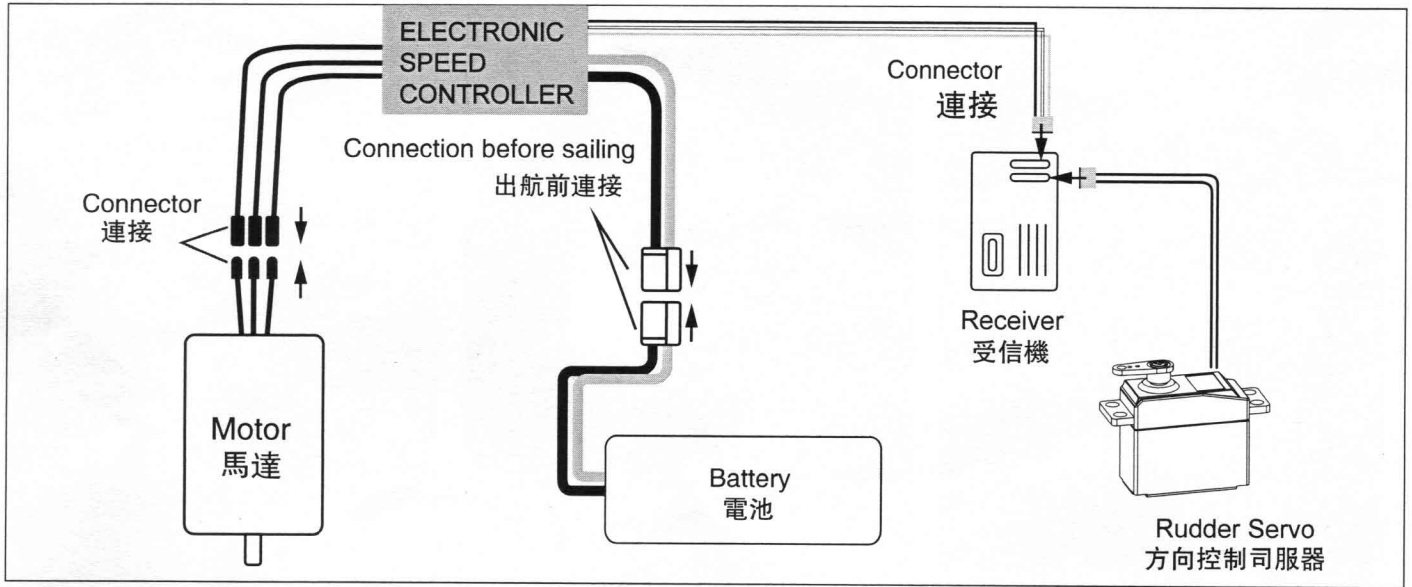

Connect as per radio instruction manual.  
接收機與伺服器的連接請參閱所選器材的使用手冊。

**Circuit Connection**

**電路連接**

**Install Battery**

**電池安裝**

Turn Fins Installation 安裝水刀

Hatch Installation 安裝船艙蓋

Waterproofing tape  
防水膠帶

Before putting boat onto the water, switch on the power, test steering and throttle briefly, then use sealing tape on all four sides of the canopy ( as shown in picture)

出航前接通電源，將船艙蓋蓋好，并用防水膠帶源艙蓋四周密封，并保證無滲漏。
